ST. PAUL, Minn.

Imports to supplement the 35 million N95 respirators 3M currently produces in U.S. per month

ST. PAUL, Minn.--(BUSINESS WIRE)--Today 3M and the Trump Administration are announcing a plan to import 166.5 million respirators over the next three months to support healthcare workers in the United States. 3M and the Administration worked together to ensure that this plan does not create further humanitarian implications for countries currently fighting the COVID-19 outbreak, and committed to further collaborate to fight price gouging and counterfeiting.

"I want to thank President Trump and the Administration for their leadership and collaboration," said 3M chairman and CEO Mike Roman. "We share the same goals of providing much-needed respirators to Americans across our country and combating criminals who seek to take advantage of the current crisis. These imports will supplement the 35 million N95 respirators we currently produce per month in the United States."

"Given the reality that demand for respirators outpaces supply, we are working around the clock to further expand our capacity, while prioritizing and redirecting our supplies to serve the most critical areas," Roman continued. "We'll continue to do all we can to protect our heroic healthcare workers and first responders, and I want to thank our 96,000 3Mers for your tireless efforts – including those in our plants and distribution centers around the world."

3M will import 166.5 million respirators over the next three months primarily from its manufacturing facility in China, starting in April. The Administration is committed to working to address and remove export and regulatory restrictions to enable this plan. The plan will also enable 3M to continue sending U.S. produced respirators to Canada and Latin America, where 3M is the primary source of supply.

As a global company, 3M has manufacturing operations around the world to serve local and regional markets. As the pandemic unfolds in different stages around the world, 3M will continue to work with governments to direct respirators and other supplies to serve areas most in need.

Beginning in January, 3M ramped up production of N95 respirators and doubled its global output to 1.1 billion per year – including the 35 million a month in the United States. 3M has already put into motion additional investments and actions that will enable it to double its capacity again to 2 billion globally within 12 months, with additional capacity to begin coming online in the next 60 to 90 days. In the United States, for example, 3M expects to be producing N95 respirators at a rate of 50 million per month in June, a 40 percent increase from current levels.

Last week 3M announced additional actions to address price gouging and counterfeit activity related to its respirators. 3M has not changed the prices it charges for respirators, and will take decisive action against those seeking to take illegal and unethical advantage of the COVID-19 outbreak.

Forward-Looking Statements

This news release contains forward-looking information about 3M's financial results and estimates and business prospects that involve substantial risks and uncertainties. You can identify these statements by the use of words such as "anticipate," "estimate," "expect," "aim," "project," "intend," "plan," "believe," "will," "should," "could," "target," "forecast" and other words and terms of similar meaning in connection with any discussion of future operating or financial performance or business plans or prospects. Among the factors that could cause actual results to differ materially are the following: (1) worldwide economic, political, regulatory, capital markets and other external conditions and other factors beyond the Company's control, including natural and other disasters or climate change affecting the operations of the Company or its customers and suppliers; (2) risks related to public health crises such as the global pandemic associated with the coronavirus (COVID-19); (3) liabilities related to certain fluoroochemicals, including lawsuits concerning various PFAS-related products and chemistries, and claims and governmental regulatory proceedings and inquiries related to PFAS in a variety of jurisdictions; (4) legal proceedings, including significant developments that could occur in the legal and regulatory proceedings described in the Company's Annual Report on Form 10-K for the year ended Dec. 31, 2019, and any subsequent quarterly reports on Form 10-Q (the "Reports"); (5) competitive conditions and customer preferences; (6) foreign currency exchange rates and fluctuations in those rates; (7) the timing and market acceptance of new product offerings; (8) the availability and cost of purchased components, compounds, raw materials and energy (including oil and natural gas and their derivatives) due to shortages, increased demand or supply interruptions (including those caused by natural and other disasters and other

events); (9) unanticipated problems or delays with the phased implementation of a global enterprise resource planning (ERP) system, or security breaches and other disruptions to the Company's information technology infrastructure; (10) the impact of acquisitions, strategic alliances, divestitures, and other unusual events resulting from portfolio management actions and other evolving business strategies, and possible organizational restructuring; (11) operational execution, including scenarios where the Company generates fewer productivity improvements than estimated; (12) financial market risks that may affect the Company's funding obligations under defined benefit pension and postretirement plans; and (13) the Company's credit ratings and its cost of capital. Changes in such assumptions or factors could produce significantly different results. A further description of these factors is located in the Reports under "Cautionary Note Concerning Factors That May Affect Future Results" and "Risk Factors" in Part I, Items 1 and 1A (Annual Report) and in Part I, Item 2 and Part II, Item 1A (Quarterly Reports), as updated by applicable Current Reports on Form 8-K. The information contained in this news release is as of the date indicated. The Company assumes no obligation to update any forward-looking statements contained in this news release as a result of new information or future events or developments.

About 3M

At 3M, we apply science in collaborative ways to improve lives daily. With \$32 billion in sales, our 96,000 employees connect with customers all around the world. Learn more about 3M's creative solutions to the world's problems at www.3M.com or on Twitter @3M or @3MNews.

Helping the world respond to COVID-19

3M is committed to doing everything we can to fight COVID-19 and support healthcare workers globally

The COVID-19 pandemic continues to affect all of us, and 3M is working around-the-clock to help provide critical tools for the fight. Our current focus: supporting healthcare and front-line workers around the world by manufacturing products they need to help protect their lives as they treat others.

Increasing output of N95 respirators

Doubled our global output rate to nearly 100 million respirators per month; expect to produce about 50 million respirators per month in the U.S. by June 2020.

Anticipate doubling our global capacity to almost 2 billion respirators in the next 12 months.

We have not increased the **prices we charge for 3M respirators** in this crisis.

Partnering with others to supply more

Working with governments to investigate alternate manufacturing scenarios and exploring coalitions with other companies to increase capacity further.

Partnering with Ford Motor Company to increase production of 3M Powered Air Purifying Respirators.

Secured authorization from the Chinese government to import about 10 million masks to the US from our manufacturing facility in China.

Getting product to those who need it most

In the last seven days of March 2020, we sent 10 million N95 respirators to healthcare facilities across the U.S.

In the US, 90% of our N95 respirators designated for healthcare workers; remainder for critical industries including: food, energy and pharmaceutical.

Maximizing production of other important products, including hand sanitizers and disinfectants.

Combatting price-gouging, fraud and counterfeiting

Working with law enforcement, retail partners and others to identify unethical, illegal counterfeiters and price-gougers related to 3M's respirators, remove them from e-commerce partner sites, and refer them to the appropriate law enforcement authorities.

Inviting those with concerns of potentially fraudulent activity, price gouging, or counterfeit 3M products **to report their concerns at 3M's website** so we can take action.

WARNING: Fraud and Counterfeit Activity

We have created a new 3M hotline for the U.S. and Canada that end-users and purchasers of 3M products can call for information on how to identify authentic 3M products and to ensure products are from 3M authorized distributors.

[1\(800\) 426-8688](tel:18004268688)
Call the fraud hotline.

[Report a concern](#)

[STATEMENT: Fraudulent Activity, Price Gouging, and Counterfeit Products](#)
(PDF, 1.6 MB)

3M recommends purchasing our products from a 3M authorized distributor or dealer only. This offers the greatest assurance that you will receive authentic 3M product.

If you need help identifying 3M authorized distributors and dealers in your area, please contact [3M Help Center](#) or 1(888) 364-3577 in the United States. In Canada, please contact [3M Canada Customer Service](#) at 1(800) 364-3577.

Fraudulent Activity, Price Gouging, and Counterfeit Products

At 3M, we are committed to doing all we can to help combat the fraudulent, price gouging, and counterfeit activity that is unfortunately occurring in connection with COVID-19. Examples include people fraudulently representing themselves as being affiliated with 3M and having authentic 3M product to sell, selling (or offering to sell) 3M products at grossly inflated prices, selling counterfeit products falsely claimed to be from 3M, and falsely claiming to manufacture 3M products. In many cases, these scammers will try and secure funds in advance and then disappear once the money is received.

3M will not tolerate any such activity by 3M authorized channel partners and we will aggressively pursue third-parties that seek to take advantage of this crisis. We are working with law enforcement authorities around the world – including, in the U.S., the U.S. Attorney General, state Attorneys General, and local authorities.

We have also created a new **3M COVID-19 Fraud hotline** for the U.S. and Canada that end-users and purchasers of 3M products can call for information to help detect fraud and avoid counterfeit products. **You can reach this hotline by calling: 1 (800) 426-8688.**

In addition to the hotline, you can report a concern in the US at www.go.3m.com/covidfraud. You can report a concern in Canada at www.go.3M.com/covidfraud-en-ca (English) or www.go.3M.com/covidfraud-fr-ca (French)

3M recommends purchasing our products only from a 3M authorized distributor or dealer, as that offers the greatest assurance that you will receive authentic 3M products.

With regard to 3M respirators specifically, we are providing the following additional information to help stop price gouging and sales of counterfeit products:

- 3M has not changed the prices we charge for 3M respirators as a result of the COVID-19 outbreak.
- We are actively working to eliminate price gouging, including making referrals to law enforcement where appropriate.
- To help customers identify and avoid inflated prices, we are now publishing current single-case list prices for many of the most common 3M N95 respirator models sold in the U.S.
- List prices for these models sold in Canada are similar on a currency-adjusted basis.
- These list prices are per respirator.

	Model #	List Price (USD)
Surgical N95 Respirators	1804	\$0.68
	1804S	\$0.68
	1860	\$1.27
	1860S	\$1.27
	1870+	\$1.78
Standard N95 Respirators	8210	\$1.02 - \$1.31
	8210Plus	\$1.18 - \$1.50
	8210V	\$1.48 - \$1.88
	8110S	\$1.08 - \$1.37
	8200	\$0.63 - \$0.80
	8511	\$2.45 - \$3.11
	9105	\$0.64 - \$0.81
	9105S	\$0.64 - \$0.81
	9210+	\$1.40 - \$1.78
	9211+	\$2.68 - \$3.40

- Actual prices may be lower than these list prices, as negotiated between you and your chosen reseller.
- 3M has also worked to further accelerate delivery of respirators to critical end-users – both by utilizing our existing network of healthcare distributors and, where it makes sense to do so, shipping directly to end-user locations. Effective the week of March 23, the small volume of 3M filtering facepiece respirators being made available to critical industrial infrastructure is shipping directly to the specified end-user.
- 3M respirators should be sold only in 3M packaging, with model-specific user instructions accompanying the product.
- 3M respirators should not be sold individually or without packaging (including User Instructions).
- 3M has strict quality standards, and therefore products that have missing straps, strange odors, blocked valves, misspelled words, etc. are likely not authentic 3M respirators.

Finally, 3M personal protective equipment (PPE) is intended, labeled, packaged, and certified to meet the requirements of the countries in which 3M sells it. Those requirements differ around the world, including as it relates to, for example, respirator performance, local language, and local certification and approval for sale and use. As a result, 3M PPE imported from other countries may not meet local requirements. Please confirm such PPE meets all applicable requirements prior to use.

For technical assistance regarding the selection and use of 3M respirators, please contact your local 3M Technical Service team. In the U.S., you can call 1(800) 243-4630. In Canada, you can call 1(800) 364-3577.

**For more information, contact the 3M Help Center at 1(888) 364-3577 in the United States.
In Canada, please contact 3M Canada Customer Service at 1(800) 364-3577.**

Re: Proof of funds for 3m 1860 from Nexus Medical, LLC

Gentlemen:

This correspondence shall confirm that I have verified that Nexus Medical, LLC ("Nexus Medical"), has in excess One Billion Ninety Million Dollars (\$1,090,000,000.00) in its escrow account pledged for a Purchase Order with your company for five hundred million 3M 1860 masks. As counsel for Nexus Medical, I oversee Marc Hesse and Chicago Title's administration of the Nexus Medical Escrow Account at Plains Capital Bank. Should you be able to meet the obligations of providing verified 3M 1860 masks with current 3M certifications, SGS reports, lot numbers, and expiration dates, Nexus Medical is ready willing and able to close this transaction. I also can verify Nexus has been asked by State Governments, Hospital Groups and First Responder organizations to source masks for their PPE needs. One such example is the State of California.

Please do not hesitate to contact me if you have any questions.

Instadose Pharma Ltd
Attn: Andres Victoria

Dear Mr. Victoria, we would like to inform you that we have secured the production of your 50 Million N95 1860 protection mask purchase order for your customer SHLOMOT MEDICAL SERVICES LTD until May 7, 2020. We cannot hold this slot past that date due to the high demand of PPE products in the marketplace.

It is our policy for our ultimate customers to open an Escrow Account with our Nationally recognized Law Firm Thompson & Knight LLP and Hesse and Hesse. They serve as protection for all parties involved. Your customer's funds will be deposited with them as a 3rd Legal Party in charge of payment when we meet the requirements set out by your customer. The requirements are standard PPE practice.

The process is simple:

1. 3M manufacturers masks
2. 3M then has an SGS report done to inspect quality and reliability.
3. 3M will ship the product to the customer CIF.
4. 3M notifies the attorneys, customer, and Sellers with an SGS report and shipping report.
5. The attorneys then release payment ONLY for the product being shipped and passed inspection.
6. The process repeats again every 7 days until the purchase order is complete.

Also, we want to confirm with you an additional secured 50 million masks production-line with 3M in California at the price of \$2.50 per mask, CIF NY. Please let me know as soon as possible if you are interested in this additional production-line order.

We hope this letter helps everyone understand the process and authenticity of this business transaction.

Best regards,

Mario Gasca
